

# Resource App

Reliable Content. Innovative Delivery.

## Introducing the QuickSeries® Mental Health Resource App

As content delivery experts, we know the value of delivering vital information, at the right time, to the people who need it.

Mental health is a vital aspect of overall health and well-being. That's why we created the Mental Health Resource App.

Now you can deliver the latest mental health news, information and resources to your community. This comprehensive app comes preloaded with three Essential eGuides of your choice, and it can be enhanced at any time with additional relevant titles from the QuickSeries® library.

### Complete Content Control

Deliver comprehensive information and resources to speak to your community's needs. Update your App's content at any time – your administrative portal puts you in control.

### Modular Features & Options

Our unique turn-key modular approach lets you choose the specific options and features you need so you get the most out of your App.

### Convenient & User-Friendly

Provide a go-to app that is both engaging for your community and easy to manage through the Web-based administrative portal.

# Make the Mental Health Resource App Your Own

## Comprehensive Content

- Create a hot-topic hub for vital resources and information your community needs.
- Enhance your App with titles chosen from the vast QuickSeries® eGuide library or deliver your own content in our custom eGuide format.

## Resources & Contacts

- Deliver a searchable categorized list of key contacts and resources.
- Web links and in-app call and email functions help App users reach key services.
- Update the contact information easily and as often as necessary via the administrative portal.

## News & Notifications

- Create and publish news articles and maintain a list of RSS feeds to be delivered directly to your entire community.
- Urgent news? Push notifications let you instantly alert all App users.

## Administrative Portal

- Managing your app is incredibly easy. The Web-based administrative portal lets you instantly deliver content and updates to your community.
- You have complete control over your content – no special technical knowledge or software downloads required.
- Control who has administrative access to your portal to manage your App's dynamic content and updates.

## Optional Modules and Features

### User Management

- Public user registration
- Private user registration
- Anonymous user registration
- Roles management

### Interactive Content

- Server-based reporting
- Multi-forms
- Checklists
